COMPANY PROFILE

WHO WE ARE

Founded in 2004, PODS was established with the intention of capacitating first response agencies against the impact of flooding. Today, PODS is a trusted partner to the local emergency management community, supplying specialized products and FEMA-Certified training. We provide the backbone support to institutions, developing in-house preparedness programmes that support stakeholders, the community and the country at large.

OUR VISION

To preserve and protect the lives and assets in our region by offering solutions that build resilient communities.

OUR MISSION

We develop core competencies in Business Continuity and Emergency Management through knowledge, training and empowerment, providing our stakeholders with actionable solutions.

OUR CORE VALUES

PODS is the leading local Emergency Management resource company representing an uncompromising quality of products and services. Our Company's philosophy is based on developing and retaining long-standing relationships with our stakeholders. Our valued partnerships help us to strengthen our national response capabilities. We strongly believe in building the internal capacity of our clients to manage their own risks in a way which no externally driven process can. We operate always with the highest level of integrity.
